Ocean Reef, WA 6027

Dear Bill and Bob Kirby,

**RE: Turn Master Pro bulkheads and Learn to Swim Platforms.**

Just a quick note to confirm that the Learn to Swim platforms were delivered a couple of weeks ago and they have been well received.

The addition of these platforms and the Turn Master Pro Bulkheads a couple of months ago has seen a dramatic transformation of our Learn to Swim Program. We are extremely pleased with how versatile our programs have become and have received a great deal of positive feedback from our customers.

With the closure of our outdoor pool in March, attempting to accommodate the variety of user groups requiring lane space in our indoor; six lane 25 metre pool was proving extremely difficult. The Turn Master Pro Bulkheads and the platforms have provided us with the ability to fully utilise the space allocated for Learn to Swim and Squads and allows the centre to provide access to the general public for other activities such as Lap swimming, Recreational swimming and Aquarobics.

We would like to thank Kirby Swim for providing us with the equipment to enable us to expand our operations and reach our full potential.

Yours faithfully

Bryan Pasfield
